

Updated laboratory test panel names

September 2018

Redwood Toxicology Laboratory is renaming existing laboratory test panel names for urine and oral fluids. The new panel names will provide comprehensive descriptions of panels, including specimen type, number of drugs in the panel, and a list of each test in the panel (space permitting).

No action is required by clients for this change. Only the panel names are changing; panel codes and test methods within each panel will remain exactly the same.

PANEL IDENTIFICATION

Panel Code	Specimen Type	# of Tests Run	Drugs and specimen validity test abbreviations
P08	Urine	8 Panel	ALC,AMP,BAR,BZO,COC,CR,OPI,THC

EXAMPLES OF POPULAR PANELS (All panels to follow this new name convention)
